

Warranty Wise. Peace of Mind.

**LouvreTec**<sup>®</sup>  
*Engineered for Life*

warranty

**LOUVRETEC OPENING ROOFS, SUN LOUVRES + SHUTTERS**

**WARRANTY DETAILS**

All product installed by Louvretec, or an Authorised Louvretec Installer, is from date of invoice, fully warranted for the first two years. This warranty covers workmanship, louvres and all componentry, motors, switches and electronics with all labour costs included. In addition, from year two to end of year five, a warranty replacement of parts only applies for all motors, switches and electronics. Labour costs excluded. (Excludes any wiring and electrical connections done by others).

**MOTORISATION**

Louvretec exclusively uses Somfy motors, switches and electronics. Somfy offers a 5-year warranty on all motors and electronics. Please contact your Louvretec Dealer or Somfy for a complete list of all terms and conditions.

**PRODUCT MATERIALS**

All aluminium louvres and extrusions used in Louvretec's systems are manufactured in an ISO9002 quality assured environment to AS1866 & AS3902 standards. Marine grade T316 stainless steel is used for drive axles, with stainless steel componentry fixings being standard. Plastic injected moulded componentry is all UV stabilised.

**POWDER COAT FINISHES**

A wide range of exterior powdercoat finishes is available. Duralloy or equivalent is the standard finish supplied unless stated otherwise and provides excellent resistance to weather and salt spray. This carries warranties of a maintainable service life of 25 years, film integrity of 10 years and colour integrity of 7 years.

**ANODISED FINISHES**

The current specifications re anodised aluminium range from 12-20-25 microns depth. The greater the microns the better the protection. With regular cleaning anodised material will retain its original integrity for no less than 10 years.

**FULLY ENGINEERED**

Our louvre systems are designed to conform to New Zealand and Australian standards wind loadings. Full engineering details available on request.

**CLEANING**

Periodic cleaning is essential to remove dirt, grime and accumulated salt deposits from both powder coated and anodised surfaces. Three steps for cleaning are:

- 1 Carefully remove any loose deposits with a wet sponge.
- 2 Use a soft non abrasive brush and a mild car cleaning detergent solution to remove dust, salt and other deposits.
- 3 Rinse off with clean fresh water.

**LOUVRECARE**

Louvrecare is a planned preventative maintenance and valet service designed to keep your Louvretec product clean and in good working order. Contact your Louvretec Dealer for full details.
